

Photos of the Artistic and Horticulture Entries at the 2018 GCV Symposium at the Science Museum in Richmond. This page shows the Illuminary Interclub arrangement.

Leesburg won the Blue!

Some of the other Illuminary entries.

The Interclub Reflective entries...

The Blue..
and another
entry (on the
right)

Mobile Kinetic (it is supposed to be free moving and they all were...especially the Blue ribbon winner below left. The one of the right was loved by all of the judges but was for display only.

Parallel with the blue ribbon winner below.

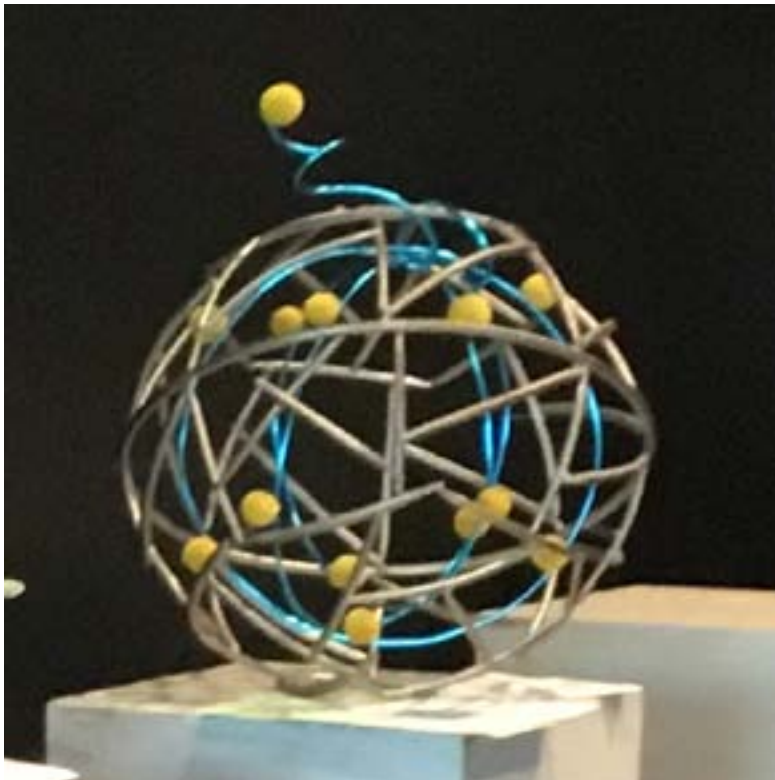

These two were the only entries for stretch. The one of the right won the blue. The one on the left won most creative even though it was too full of flowers to win the blue in its class!

This class is Stable Kinetic; implied motion.

The blue here on the left;
and another that I liked a lot.

Synergistic: Below, the Blue ribbon winner on the left. The one on the right below was a novice entry and I liked it a lot.

These next pages show the horticulture entries. Who would have thought we had so many flowers blooming in spite of all of the rainy weather!!
